REMOTE DETONATION BOMB
Regardless of the distance, Kira can press the switch to "light" these bombs wherever he likes. Its strength lies in its ability to pass through any defense and enter wherever air exists, but since it must be lit to detonate, it may drop in power if detonated at the wrong location.
CONTACT BOMB
These air bullets will detonate upon touching anything in their path. Since they come into contact prior to detonation, they boast high destructive power, but they can be blocked by walls and the like. Since they detonate on contact, they cannot pass through walls.

In the end, Joseph Joestar adopted her.

The ***Invisible Baby***'s mother was never found...

It goes without saying that his wife, Suzy Q, suspected, ***"Is this another one of your illegitimate children!?"*** and the family went through another chaotic period. It is unknown whether this was the cause, but Mr. Joestar, who had been growing dull, has recently returned to good health.
